Roof

JoB is a very talented builder -- "Habitat" is extremely strong and solid and efficient in design. I told John on 6/21/85 the outside dimensions I wanted & what I wanted in the interior and he designed & built my new house. We agreed that in so doing I would pay him at whatever hourly rate he decided upon and deduct the total sum from the sum that he owes me. As of 6/25/85 he owes me \$326.00; 8 hrs. on 7/23 & 5 hrs. on 7/24 = 13 hrs \times \$7.50 = \$97.50; $326 - 97.50 = 228.50$

Rescheduled my 4 P.M. appointment with Blenda Misko to have my hair cut to 6:30 P.M. on 7/25/85

Received, on 7-20-1985, the post card from W.B.W. from China that is shown below. I have never before received any mail from China. It seems so incredibly distant and remote.

Given W.B.W.'s fondness for Chinese food, it is indeed ironic that the Chinese food in China that W.B.W. has had is "terrible," when it can be so good/excellent in Chinese restaurants in Chongtoun.

Day 2 of construction of "Habitat" -- JoB did the wiring & constructed the ^{left} bed; we purchased & installed the outside corner masonry; we worked for 5 hours today
